Contents

- What is YouTrack
- Server Instance Creation
 - Project and team setup
- Board, stories
- Planning, tasks, sprints
- Time tracking and statistics
- Extra features

- YouTrack is a project management and team collaboration tool
- It's available on cloud or on-premises
 - free for up to 8 users

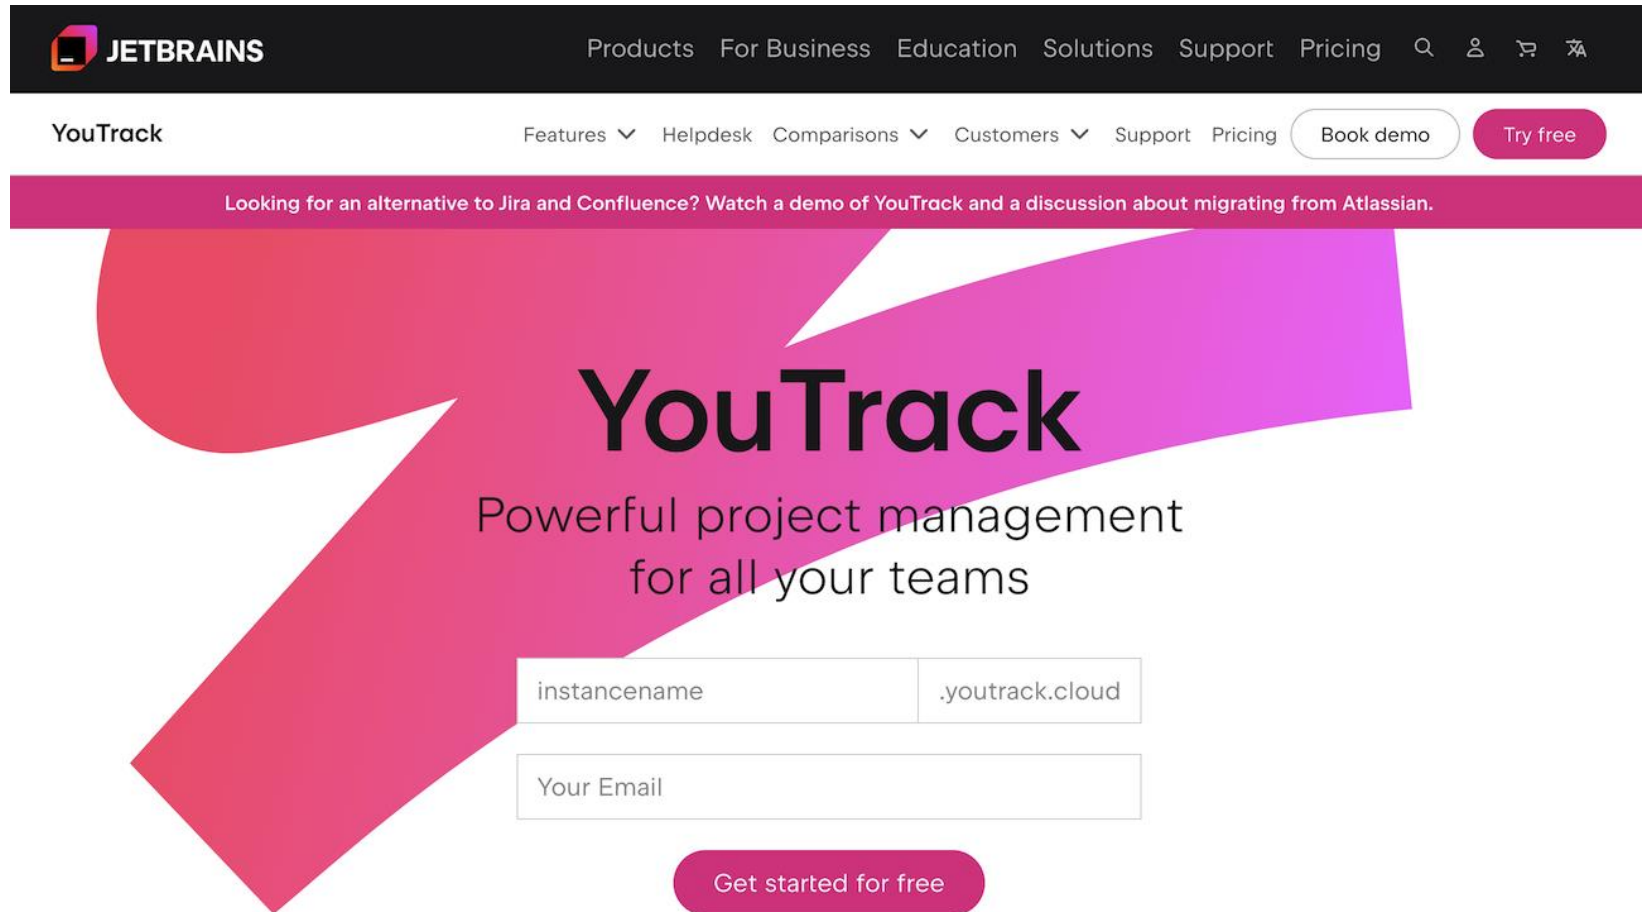

Main features

- Task management
 - Including issue tracking
- Team collaboration
- Planning
- Time tracking
- Agile boards

SETUP

Server Instance Creation

Go to the website of YouTrack <https://www.jetbrains.com/youtrack/>

The screenshot shows the JetBrains YouTrack website. At the top is a dark navigation bar with the JetBrains logo and links for Products, For Business, Education, Solutions, Support, Pricing, and a search icon. Below this is a white navigation bar with the YouTrack logo, links for Features, Helpdesk, Comparisons, Customers, Support, and Pricing, and buttons for 'Book demo' and 'Try free'. A pink banner below the navigation bar contains the text: 'Looking for an alternative to Jira and Confluence? Watch a demo of YouTrack and a discussion about migrating from Atlassian.' The main content area features a large pink abstract graphic on the left. The text 'YouTrack' is prominently displayed in the center, followed by the tagline 'Powerful project management for all your teams'. Below the tagline is a sign-up form with two input fields: 'instancename' and '.youtrack.cloud'. Below these is a 'Your Email' input field. At the bottom of the form is a pink button labeled 'Get started for free'.

Project Setup

The screenshot displays the YouTrack web application interface. At the top, a navigation bar includes links for 'Agile Boards', 'Reports', 'Projects', 'Knowledge Base', and 'Timesheets', along with a 'Create' button. A central modal window titled 'Get started with a demo project' is active. It contains the following text:

Get started with a demo project

We've created a project with sample issues that help you discover how to work with YouTrack. You also get to track your progress with sample agile boards and reports.

This is a fully-functional project that you can use to track your own issues if you decide to keep it - or you can delete it completely without causing any harm.

At the bottom of the modal, there are three buttons: 'Explore the demo project', 'Delete the demo', and 'Start a new project'. The 'Start a new project' button is circled in red. A large yellow arrow with a black outline points from the bottom left towards this button, with the text 'Start a new Project' written inside it.

The background of the interface shows a project board with columns for 'In Progress' (10 items) and 'Fixed' (1 item). A task card is visible in the 'Fixed' column with the title 'DEMO-1 Launch YouTrack' and a status of 'Show-stopper'.

Project Setup

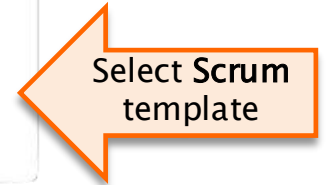

Task Management

A simplified project template for general task management needs

Scrum

An issue-tracking project optimized for Scrum, with separate agile boards for development and project management

Kanban

An issue-tracking project optimized for use with the Kanban methodology

Helpdesk

A preconfigured helpdesk solution that lets support specialists track and resolve incoming customer requests

Project Management

A framework for organizing tasks by milestones, incorporating time tracking to gain deeper insights

Default

A standard issue tracking project with the default issue fields and workflows

Demo

A software development project with sample issues that help you become more familiar with key features in YouTrack

Marketing

A project specifically tailored for managing marketing activities

Project Setup

New Scrum Project

Personalize your project to help other users understand its purpose and scope. You can update these values from the **General Info** tab in the project settings if needed.

Project Setup

Enable «Time tracking»

×

Measure how you spend your time

Time tracking lets your team record the amount of time they spend working on issues in this project. When this feature is enabled, you can estimate the amount of effort required for each task, track progress in each issue, and generate time reports.

☒ Time tracking

Estimation field

Estimation × ▾

Stores the amount of time it is expected to take to complete a task

Spent time field

Spent time × ▾

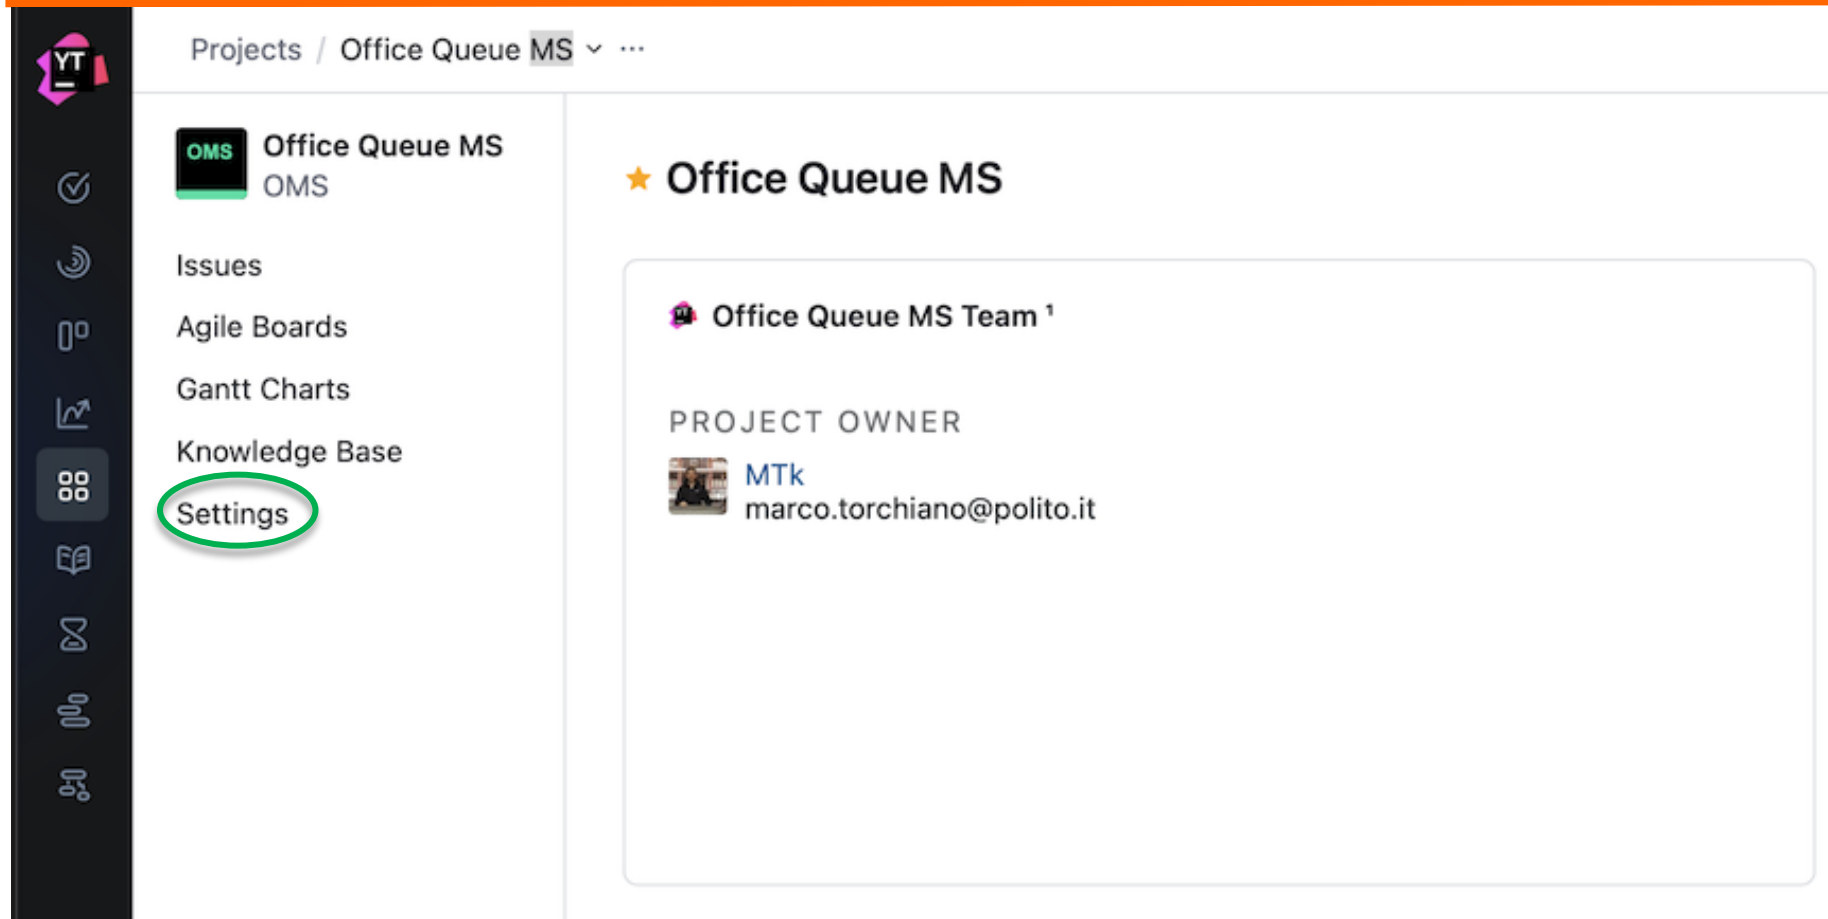

Stores the cumulative spent time tracked for each task

Project Settings

The screenshot shows the Jira interface for a project named 'Office Queue MS'. On the left, a sidebar contains navigation icons and a menu with options: 'Issues', 'Agile Boards', 'Gantt Charts', 'Knowledge Base', and 'Settings'. The 'Settings' option is highlighted with a green circle. The main content area is titled 'Office Queue MS' and displays the 'Office Queue MS Team' as the project owner. Below this, it identifies the 'PROJECT OWNER' as 'MTk' (marco.torchiano@polito.it).

Adding a new story

- In Project **Management** Board, click on “+”

The screenshot shows the 'Add New Story' dialog box in Jira. The dialog is titled 'Summary' and has a text area for the title and a larger text area for the description. The title field is highlighted with an orange box and a callout that says 'Enter a meaningful title'. The description field is highlighted with an orange box and a callout that says 'The story (As a ...)'. The dialog also has a sidebar on the right with various fields: Project (Office Queue), Priority (Normal), Type (User Story), State (Open), Assignee (Unassigned), Sprints (Unscheduled), Estimation (?), Spent time (?), and Story points (Not estimated). The 'Type' field is highlighted with an orange box and a callout that says 'Type: User Story by default'. The 'Story points' field is highlighted with an orange box and a callout that says 'Your estimation'. At the bottom of the dialog, there are buttons for 'Create', 'Cancel', and 'Visible to issue readers'. A callout points to the '+' button in the top left corner of the dialog, indicating where to click to add a new story.

Enter a meaningful title

The story (As a ...)

Your estimation

Enable story point–estimation

- In case you do not see story points:

The screenshot shows the Jira Projects page. A yellow arrow labeled #1 points to the 'Projects' tab in the top navigation bar. A red circle highlights the 'Projects' tab. Below the navigation bar, the 'Projects' section is visible, showing a list of projects: 'Demo project' and 'OfficeQueueManager'. A search bar labeled 'Filter by name' is present. On the right side, a dropdown menu is open, showing options like 'General Info', 'Access', 'Team', 'Fields', 'VCS', 'Notifications', 'Build Server Integration', 'Time Tracking', 'Workflows', 'AGILE BOARDS', and 'Archive'. A yellow arrow labeled #2 points to the 'Fields' option, which is circled in red. Another yellow arrow labeled #3 points to the 'Fields' option in the dropdown menu.

PLANNING

Start a Sprint

- In the Management Board
 - Click on Unscheduled
 - Create Sprint...

The screenshot shows a 'New Sprint' dialog box with the following fields and options:

- Sprint Name:** A text input field containing 'Sprint 1'. An orange arrow labeled 'Sprint name' points to this field.
- Goal:** A large empty text area.
- Schedule:** A dropdown menu showing '4 — 16 Oct'. An orange arrow labeled 'Dates' points to this field.
- Options:** A checkbox labeled 'Add 5 unresolved issues from "Unscheduled"' is checked.
- Buttons:** At the bottom, there are three buttons: 'Create sprint' (blue), 'Create without notification' (light gray), and 'Cancel' (light gray). An orange arrow labeled 'deselect' points to the 'Create without notification' button.

Assign Stories to Sprint

The screenshot shows the Jira Backlog interface for a project named "Office Queue MS". At the top, a "Sprint 1" dropdown is set to "4 - 16 Oct", with a "13 days left" indicator. A circled icon in the top left corner represents the sprint selection menu. Below the header, the "Backlog" section displays a list of user stories. The first four stories are "OMS-5", "OMS-4", "OMS-3", and "OMS-2", all with a status of "Open" and a priority of "Normal". The fifth story, "OMS-1", is also "Open" and "Normal". Below these, three stories are checked: "Call Customer", "Next Customer", and "Get Ticket". Each story has an "Unscheduled" button and a right arrow. The bottom of the screen shows a summary bar with "3 cards selected" and a circled "Add to sprint" button. To the right of the sprint selection menu, a progress bar shows the status of the sprint: 0 Open, 0 In Progress, 0 To Verify, and 0 Done. Below this, a section titled "Uncategorized Cards" shows four empty slots with plus signs.

TIME TRACKING

Track time

- Each team member must track their own time as soon as they complete some work on a task
 - Even if the task is not completed

The screenshot displays a Jira task card for 'Sprint Planning'. The task title is 'Sprint Planning' with a star icon and three small icons (edit, delete, link). Below the title is the description 'Perform sprint planning'. A comment box is visible with the placeholder text 'Write a comment, @mention people'. To the right of the task card, a sidebar shows the task's metadata: Project (Office Queue Management), Priority (Normal), Type (Task), State (In Progress), Assignee (MTk, marco.torchiano), Sprints (Sprint 1), Estimation (6h), and Spent time (?). A red circle highlights the '+' button next to the 'Spent time' field, indicating where to click to add time.
